Re: **C & V Income Tax Services, 630 Southdale Rd., London, Ontario**

I am writing this letter in support of C & V Income Tax Services. They have been an active partner in this community for over 10 years through their generous financial donations. Their business is located in the heart of White Oaks and Westminster and they have contributed to creating a vibrant and healthy neighbourhood.

Over the past 10 years C & V have donated thousands of dollars to support the programs at South London Neighbourhood Resource Centre. We are a non-profit Family, Child and Youth Community Enrichment Centre. We work with families and individuals from birth to seniors with a variety of free programs. We support vulnerable populations such as low-income families, new immigrant families, young parents, at-risk youth and isolated seniors.

We have limited funding and C & V understands the importance of supporting the most impoverished families in this community. Their generosity has helped us support the growing needs in the White Oaks and Westminster neighbourhoods.

Their donation supports our breakfast club in Westminster where over 2,200 healthy breakfasts were served last year. The children that attend this program would otherwise go to school unfed.

They donate annually to the White Oaks Community Council to Support our Canada Day Celebration. This celebration is free to all member of our community and is enjoyed by thousands of families every year.

C & V Income Tax Services has shown clearly that they have a keen desire to create strong relationships with their community and value the health and well-being of the families they serve.

Yours truly,

Gerri Catherwood
